

The ETHMIGSURVEYDATA network

The Network will coordinate past, present and future research efforts among scholars, survey research institutes and civil society organizations that produce and analyze data on ethnic and migrant minorities' economic, social and political integration.

Integration covers aspects such as labour market participation, educational achievement, political action and social cohesion.

We are planning to:

- produce a comprehensive compilation of the data that is available on EMMs' integration across Europe and beyond;
- articulate the mechanisms to share the data and make them available to a wider public, academic and non-academic;
- develop ways in which survey data already collected can be subject to a post-harmonization process in order to facilitate comparative analyses of data that currently stand alone;
- provide a platform for the coordination of future data collection in this field.
- coordinate activities to ensure the long-term sustainability of research efforts.

Funding

The International Ethnic and Immigrant Minorities' Survey Data Network is funded for a 4-year period (2017-2021) by the COST Action 16111 with support by the EU Framework Programme Horizon 2020.

Contact

The COST Action is directed by Professor [Laura Morales](#) of the Centre for European Studies and Comparative Politics, Sciences Po, Paris.

International Ethnic and Immigrant Minorities' Survey Data Network

COST Action CA16111

Brings together researchers, policy makers, and survey data producers to improve access, usability and dissemination of survey data on the economic, social and political integration of ethnic and migrant minorities.

What is ETHMIGSURVEYDATA?

ETHMIGSURVEYDATA is a network of researchers from all sectors (academic, think tanks, government units, non-governmental organisations, private companies) to improve the access, sharing and usability of survey data focusing on ethnic and migrant minorities' integration across Europe. It works on a sustainable improvement of the research capacity in the field of EMMs' economic, social and political integration in Europe.

Funded by COST Action 16111 with support by the EU Framework Programme Horizon 2020 ETHMIGSURVEYDATA will:

- compile, document, archive and pool a large amount of data coming from various comparable studies conducted around Europe;
- allow for an evidence-based transfer of knowledge to policymakers and to the civil society on processes and consequences of the integration of EMMs;
- define best standards for respective data assessments in the future;
- promote comparative EMM survey data production in European countries;
- train young European researchers on the assessment of EMM data and analysis.

The main goal of the network is the setup of a web-based platform or Data Hub which facilitates knowledge, opportunities for deposit and for access of EMM data across Europe.

How you could benefit from ETHMIGSURVEYDATA

YOU ARE WORKING ON ETHNIC AND MIGRANT MINORITIES (EMMs)?

Learn more about national-level and subnational-level data across Europe.

Learn more about indicators used to measure integration.

Get to know researchers working on similar issues around the world.

YOU HAVE PRODUCED DATA ON EMMs ON THE NATIONAL OR SUBNATIONAL LEVEL?

Notify us, so we can add your data to our inventory.

Your data and analyses gain visibility.

YOU ARE SEARCHING FOR DATA ON SPECIFIC ASPECTS ON EMMs?

Learn more about our inventory to find suitable data.

Make us aware of specific aspects of EMMs' integration you consider relevant.

YOU ARE A STAKEHOLDER IN THE FIELD?

Help us addressing the issues beyond research.

Learn more about applicable research results on EMMs' integration.

YOU ARE A YOUNG RESEARCHER WORKING ON EMMs?

Join our training sessions to gain expertise.

Get to know leading scholars in the field.

Expand your academic and non-academic network on EMMs' integration.

Joining ETHMIGSURVEYDATA

If you are a researcher – academic or non-academic – who did, does or plans to do survey-based research on EMMs, you can join the network.

We welcome your contribution to one or various of the following Working Groups (WGs):

NATIONAL-LEVEL DATA (WG1) AND SUBNATIONAL-LEVEL DATA (WG2)

We are working on an inventory of existing surveys that includes information on sampling, survey mode, subgroups covered, and more.

Contact: *Johannes Bergh* (national), jbe@socialresearch.no; *Anikó Bernát* (subnational), bernat@tarki.hu

GUIDELINES FOR MEASURING EMMs' INTEGRATION (WG3)

We develop a set of standards and procedures for the measurement of the various dimensions of integration.

Contact: *Patrick Simon*, simon@ined.fr

TRAINING YOUNG SCHOLARS (WG4)

We are organizing training schools for young scholars to transfer the knowledge of the network to future researchers and stakeholders on a yearly basis.

Contact: *Paula Tufis*, paula.tufis@sas.unibuc.ro

INTERACTION WITH STAKEHOLDERS AND DISSEMINATION (WG5)

We spread information on the network and stimulate the discussion on the various issues to academic and non-academic audiences.

Contact: *Elena Ambrosetti*, elena.ambrosetti@uniroma1.it
